

Advances in Cyclodextrin Chemistry and Current Applications

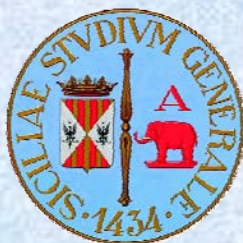

Thursday May 13th, 2010
Dipartimento di Scienze Chimiche
Università di Catania
Aula A

the attendance is free
no registration is required
students are welcome

Sponsored by

7th Framework Programme

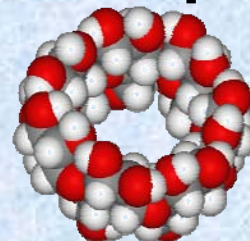

Dipartimento di Scienze Chimiche

Workshop

Programme

- 9.30 Opening Remarks
Salvatore Sortino
University of Catania
- 9.50 **Konstantina Yannakopoulou**
NCSR Demokritos, Athens
Synthetic and Structural Aspects of Cyclodextrin-Derivatives of Biomedical Interest
- 10.50 *Coffee break*
- 11.10 **Sandra Monti**
ISOF-CNR, Bologna
Spectroscopic Characterization of Cyclodextrin Host-Guest Complexes
- 12.00 **Vincenzo Cucinotta**
University of Catania
Ionizable Cyclodextrin Derivatives: Synthesis, Characterization and Applications
- 12.50-14.30 *Lunch Break*
- 14.30 **Antonio Vargas**
University of Almeria
Cyclodextrin-Based Branched Structures
- 15.20 **Fabiana Quaglia**
University of Naples
Cyclodextrins as Smart Excipients in Polymeric Drug Delivery Systems
- 16.10 *Coffee Break*
- 16.30 **Ruxandra Gref/Dominique Duchene**
CNRS, Paris
Cyclodextrin-Based Nanoparticles/ Nanoparticles Containing Cyclodextrins for Drug Encapsulation
- 17.20 **Antonino Mazzaglia**
ISMN-CNR, Messina
Cyclodextrins-Based Amphiphiles
